FOR THE LAST SIXTY YEARS, THE WORLD'S MOST VERSATILE COMMERCIAL VEHICLE

Its three wheels have plied the world's roads since the end of the Second World War, carrying all sorts of cargo. The Ape represents one of the most significant chapters in the history of urban mobility and commercial transport. A **one of a kind vehicle** which, with its unmistakable silhouette, has become a transport icon. The Ape is a part of Italian history, a product of the genius of the aeronautical engineer Corradino D'Ascanio and the far sighted vision of Enrico Piaggio. Light, agile and versatile, it has evolved over the decades without losing its unmistakable physiognomy. From the Ape A, created with the Italian post-war reconstruction in full swing, which accompanied the nation through the economic boom to the futuristic 5-wheeled Ape Pentarò of the early 1960's and the Ape Car, the undisputed queen of the 1970's. These were followed by the Ape TM designed in 1982 by Giorgetto Giugiaro and today's versions, such as the Ape Cross, which is dedicated to young users. The Ape's **compact dimensions**, together with a turning radius of just 3.4 (3.00 m for the Ape 50 model), enable it to easily reach historical city centres, narrow streets and places inaccessible to any other commercial vehicle, without sacrificing a **class beating load capacity** of up to an incredible 800 Kg! **Reliable and economical**, thanks to petrol engines from 50 to 218cc, the Ape range includes versions with handlebar or wheel steering catering for every possible professional application.

Ape 50

APE 50: MORE IN LESS SPACE

Ape 50 is the smallest and most versatile range of commercial vehicles available today. Parking and accessibility are never a problem, even in the tightest city centre streets. It can be driven with a scooter license from just 14 years of age. For its size and fuel economy, its load capacity is unrivalled (up to 200 Kg or 1.5 m³). With its easily accessible deck, the generous space of the van version and the young style of the Cross, Ape 50 offers practically limitless solutions.

Ape 50

APE 50 DECK: THE ORIGINAL

Ideal for transporting small loads in rural and urban areas, this is the best selling Ape in the range. Unbeatable for compactness, manoeuvrability and fuel economy, with a range of over 300 Km on a single tank. Available in long and short deck versions, both of which ideal for a wide variety of applications.

APE 50 VAN: A SMALL BUT CAPABLE DELIVERY VEHICLE

Ideal for small and frequent deliveries in the city. Manoeuvrable and reliable, nimble in traffic and the perfect solution to the problem of parking, with its ultra-compact dimensions. Capable of carrying up to 170 Kg of cargo, completely protected and covered in its easy to load 1.5 m³ cargo bay, which makes use of every available inch of space.

APE 50 CROSS COUNTRY: THE “YOUNG” PICK UP

A fresh and dynamic design with contemporary colours make the Ape 50 Cross Country a trendy proposition. The mini-pick up comes as standard with a comprehensive list of equipment for total safety: roll-bar, front and rear bumpers and large rear view mirrors. Enjoy life to the full with Ape 50 Cross Country, carrying your surfboard or snowboard while listening to your favourite music, as it comes ready wired for a sound system as standard.

Ape TM

THE APE TM, THE PERFECT PARTNER

The most widely sold and multipurpose version in the range, the magic wand capable of answering any transport need.

Within the compact dimensions hides an impressive load capacity: in the deck version, the Ape TM can carry up to 700 Kg in total reliability, thanks to its modern, fuel efficient petrol engine. The Ape TM can be driven with an A or B class driver's license, and is also available as a chassis version for outfitting with special equipment.

Ape TM

TM DECK, GOOD-BYE SPACE PROBLEMS!

The definitive workhorse Ape, offering unparalleled versatility and impressive load capacity. The extremely fuel efficient petrol engine makes the TM nimble, economic and capable of covering any medium or long range route quickly. Available in short deck, long deck and tipper deck versions, with light alloy dropsides and tailboard with a modern design. On the long deck version, the load deck boasts a usable surface of 2.75 m² with a maximum load capacity of over 700 Kg. The Ape TM is also available with both handlebar steering, which is ideal for rural use, and wheel steering, for city and extraurban use.

TM VAN, YOUR LOYAL WORK COMPANION

The perfect Ape for large deliveries, with a large and completely usable cargo bay. This is the ideal solution for carrying relatively large loads in the city, offering complete weather protection for your cargo. 2.5 m³ of available cargo volume and a load capacity of almost 700 Kg make it an unbeatable proposition.

ApeCalessino

THE NEW APE CALESSINO 200, THE ICONIC THREE-WHEELER

Like a still from the film *the Dolce Vita*, the Ape Calessino 200 evokes an aura of charm, a sophisticated Mediterranean lifestyle and glamorous holidays. The Ape Calessino 200, the latest addition to the family of vehicles which from 1949 onwards has revolutionised passenger transport in historic city centres and on winding roads, have kept all the fresh, non-conformist style of the original version.

The new compact size makes the Ape Calessino 200 even more agile and easy to handle, even in the toughest driving conditions. With its immediate appeal, the Ape Calessino 200 is ideal for special events, brand promotion and advertising. It is also perfect for transporting passengers around historic city centres, resorts and tourist attractions, and its evocative personality makes it a must-have for collectors and fans of Italian style.
